AT LITTLE'S HOTEL,

Where he will be happy to meet all those afflicted withany kind of disease—and considered incurable by other practitioners. His remedies are only those which nature has so bountifully provided us with. In the treatment of disease he rejects the use of all poisonous drugs and minerals. Instead of enfechiing the system he invigorates, that nature may be able to expel the disease. It is to the knowledge of those great secrets that he owes his success; and in using which he defies all the Medical Faculty on the Comment to compete with him. All those who are suffering from Lung Diseases of whatever nature, are particularly desired to call, as one-half of the cases of consumption that are pronounced incurable by the Medical Faculty, and considered hopeless, are readily cured, and yield at once to his mild plan of treatment, from the very fact that not one physician in twenty have the proper instruments for examining the lungs, and those who have, are very few of them capable of judging the amount or kind of disease to which the lung is subject. He has cured hundreds upon hundreds of such patients, who had been given up by other practitioners to die.

given up by other practitioners to die.

The idea that consumption is necessarily fatal has destroyed more human life than the disease itself.

For all forms of Dyspepsia and Kidney Diseases he tests the urine, for the excesses deposited, which is the only possible plan to ascertain the true cause of disease.

The Dr. can show more certificates of cures, sworn to by patients, than any other physician in America. Not like hundreds of empirical swindlers, he never prepares his medicines until he ascertains the disease and the true cause. He has no puffed nostrons that will care all diseases,

The diseases of Women and Children receive his particular attention.

Seminal Weakness and Spermatorrhora. It is a melancholy fact that thousands who are suffering noder pale and insatiate disease are victims of secret habit, self abuse, gradually undermining their constitution—the disease institution wrecked, and they become subject only for a hospital or mad-house, unless death comes in as a welcome guest to relive the patient from his suffering, and his friends from the painful evidence of his irregularities and errors. The penalty will not cease with the transgression; the constitution has received the shock, and nature, unaided can not repair the lightly. The only escape is four diprompt and proper medical treatment. The earlier this is sought the easier tic cure. Generally the first symptoms in and coins, lassitude, loss of memory, confused ideas, low spirits, timidity, aversion to society, love of solitude, with general debility, and frequently attended with cough and bectic fever. This disagreeable and awful complaint, with all its symptoms, can be relieved and promptly arrested by the Indian florb bactor and his new method of cure.
